PART A - DESIGN ANALYSIS

PART A**DESIGN ANALYSIS****Furnishings**

The furniture pieces selected for the Misawa AB Hospital Modernization package will be chosen on the basis of function, durability and aesthetics that are appropriate for the spaces that consistently has high turnover of occupants.

Finishes

Finishes will be selected for their high durability and low maintenance requirements. Wood chairs with polyurethane upholstered seating will be easily cleaned without any special solution. Writing surfaces in will consist of high pressure decorative laminate that can withstand the possible abuse of different occupants. All feet on chairs have the appropriate casters or glides for the floor finish they sit upon. All seat fabrics exceed the minimum double rub industry requirements rated for high use.

Colors

The color palette selected compliments the cool neutral overall finish palate that evokes a calming feeling and provides a fresh and clean appearance.

Coordination with SID finishes

In many cases the specified furniture vendors have been asked to match with specific finishes that appear on the architectural set of drawings for color consistency, i.e. wood furniture to match architectural casework finishes.

Flexibility

Similar finishes were selected for many pieces regardless of their building location in order to provide flexibility of future placement and movement, as well as, minimizing complicated repurchasing orders in the future (if necessary) by the facility manager.

Sustainability

Where possible, furniture with a Green Guard certification was selected, which will contribute to a higher level of indoor air quality by lessening the amount of VOCs (volatile organic compounds) in the air.

PART C - ITEMIZED FURNITURE COST ESTIMATE

PART C**ITEMIZED FURNITURE COST ESTIMATE****IMPORTANT PRICING INFORMATION**

Pricing provided is for budgetary purposes only.

Unless otherwise noted; pricing provided is General Services Administration (GSA) net price assuming a purchase of a quantity of one (1).

Freight and installation costs are estimates only assuming a purchase of a quantity of one (1). Adjustments to these costs shall vary based on the date of, and quantities purchased.

GSA pricing is provided by each manufacturer. Pricing is subject to change based on each manufacturer's GSA Contract pricing structure, pricing policy or pricing increase schedule. All pricing should be verified with the Manufacturer's GSA contract holder or representative or the furniture dealer prior to purchase.
