

CAD, AEC & Facility Management Solutions

...the largest facilities related consultant and systems integrator in the United States

STEVEN D. HILLIER
CIFM Expert

Mr. Hillier is a Project Manager and CIFM Expert with broad experience in CAD, database development, MIS design and training. Steve majored in finance while earning his MBA at Oakland University. He is a licensed architect and has more than fifteen years experience in FM systems development and system documentation including CMMS implementation. His education, training and experience make him an effective project manager and CIFM consultant. His specific skills include CIFM database development in dBase, FoxPro, MS Access and Oracle in stand alone, networked or internet implementations. Major projects include CIFM implementations for William Beaumont Hospital and General Motors Worldwide Facility Group, CAFM implementations for Detroit Medical Center, Oakland County and Ford Motor Corporation, and CMMS development for Pfizer / Parke-Davis and Michigan Department of Transportation.

Education:

Institution	Degree	Areas of study
Lawrence Technological University	B. Science Ar.	Architecture
Oakland University	M.B.A.	Finance

Work Experience:

No. of years	Responsibilities
5	CIFM Project Manager
6	Management / Industrial Engineer
4	Senior Architect/ Facility Design - Planning

Projects:

Type	Role	Description
CIFM Implementation	Project Manager	Database design and development for CIFM systems including Life Safety, Mechanical, Electrical and EIS for William Beaumont Hospital, Royal Oak, MI
CIFM Implementations	Project Manager	Database design and development for CIFM system combining CAD documentation with registration database for Western Michigan University, Kalamazoo, MI
CMMS Implementations	Consultant & Project Manager	CMMS system implementation for all rotating equipment requiring service and FDA documentation for Warner-Lambert / Parke-Davis Pharmaceuticals, Ann Arbor, MI
CAFM Implementations	Consultant & Project Manager	Precision facility documentation including HVAC, piping, mechanical and electrical systems for engineering and credit computer facilities, Ford Motor Corporation, Dearborn, MI

Technical Expertise:

Operating Systems:	DOS, Windows 3.1-98 / NT, Novell
---------------------------	---

CAD Software Packages: AutoCAD 9-14, AutoCAD Lite, MicroStation
CAFM Software Packages: Archibus/FM11 EIS/ Web Central, Aperature
CMMS Software Packages: MP2
Document Management Software: AutoManager Workflow
Miscellaneous Software: dBase II – IV, FoxPro, Paradox, Watcom, Sybase, Oracle8 EM, PL/SQL, Lotus123, MS Office 98 Suite, VBA, MS Front Page, HTML, Cold Fusion, O'Reilly, IIS

Special Qualities:

Mr. Hillier is a licensed Architect in Michigan and is certified by the National Council of Architectural Registration Boards.
